□\*\*\*\*\* Sharing files over the Internet has never been easier. Now you can simply search for a file, and see where other people have uploaded it. Just point your Web browser to [www.soulfoundation.org](http://www.soulfoundation.org) and let the app do the rest. File search and sharing is more like a trend nowadays, everybody's doing it, no matter the application or service they are using. That's why utilities like Soulseek are quite handy for all those who wish to share files over the Internet, because they offer features everyone likes: a simple and easy to use interface, stable connections as well as fast downloads. Share and download files in no time, with just a few mouse clicks Soulseek was initially designed to let independent music artists from all over the world share their creations with ease, so you will find several rooms in there named after popular music genres. The most important thing when it comes to Soulseek is that you don't have to share anything to use it. Nonetheless, you'll need an account but it takes just a couple of seconds to create one. Just pick a username, choose a password and you're ready to go. Straightforward tool for file-sharing The interface on the other hand is quite simple and helps the app serve its purpose pretty easily, so you can switch through chat rooms, file search, transfers and wishlists with a single click. You'll find several settings menus in Soulseek dedicated to file sharing configuration, private messaging options and many more. Transfer rates remain pretty good since we are talking about a peer-to-peer file sharing app, so it only depends on the Internet connection. User-friendly and useful P2P file-sharing piece of software Unfortunately, there are fewer users connected to Soulseek than other more popular services, so don't expect to see tens of thousands of people sharing files through this app. Still, the software remains a simple and efficient way to find something you need or make available personal stuff you want everyone to access. □\*\*\*\*\* Enjoy the shared files of hundreds of thousands of users with Soulseek. □\*\*\*\*\* share Music, Movies, Games, Documents, Office Files □\*\*\*\*\* Stream Music from the web Share Movies and TV shows from Hulu or Netflix Share PC games and Game ROMs Share software and installable files Share PDF and
